PROJECTS

BeautyStudiokk.pl (HTML, CSS, JS)

Code: https://github.com/Zaniew1/Brows-Beauty

View: http://beautystudiokk.pl/

Description: BeautyStudio is a portfolio website for a beauty salon.

PomodoroApp (HTML, CSS, JS)

Code: https://github.com/Zaniew1/PomodoroApp

View: https://zaniew1.github.io/PomodoroApp/

Description: PomodoroApp is an application designed for people who want to increase their productivity. The project uses local storage and has many editing options.

Weather App (React, Typescript, CSS)

Code: https://github.com/Zaniew1/React-WeatherApp

View: https://zaniew1.github.io/React-WeatherApp/

Description: Weather App is a weather application that uses the API (Weatherapi.com) to present the weather at the current location or in the city entered by user.

Photography Site - in progress (React, TypeScript, Firebase, Next.js, CSS)

Code: https://github.com/Zaniew1/React-PhotographySite

Description: Photography Site is a site that serves as a photographer's portfolio site. It will have an admin panel with the ability to add new photos or update the price list, which will be allowed by Firebase. The website will be built using Next.js.

INTEREST

Mountain hiking, Computer games, Swimming, Traveling
